

# Wireless Tank Level Monitoring

An Added Benefit From Howard Energy!

## Peace of Mind.

Using powerful, real-time information Howard Energy anticipates your fuel needs with accuracy - providing you with an unparalleled advantage.

## Convenience with the Focus on Your Business!

Put an end to the administrative time analyzing your fuel needs and calling for a delivery.

## Focus on Safety and Lower Manpower Costs!

Eliminate the need to send employees to take "stick" readings. Checking tank levels manually means increased labor costs and potential safety issues.

## Fewer Work Interruptions.

Less delivery truck traffic and fewer invoices to process.

**Powerful** with frequent readings and low level alerts, Howard Energy closely monitors your tank levels, fuel usage and GPS coordinates.

**Solar Powered & Wireless!**  
No electricity and No battery changes!

**Simple!** Howard Energy handles the quick and easy installation.

**Durable** to withstand severe weather.

**Versatile and Reliable** for high usage or tanks with unpredictable usage.
